Registration for our Summer session courses begins on March 6, 2024, at 12:30pm.

Note that we are again offering courses in a May intersession period that will follow exams and precede graduation. This opportunity, open for credit to rising 2L and 3L students as well as continuing MLS / LLM students, involves a limited number of intensively-taught, single-credit courses that are described further below.

We are also still offering a menu of summer courses over two longer sessions, one from mid-May through early July, and another from mid-July through mid-August. Note that there is a mix of remote and in-person classes, but in-person classes will NOT have a remote option (i.e.,). Also
